

Internship Repository

ANSA is committed to connecting student members to available internship opportunities in their respective fields. We also offer career guidance through ANSA's industry professional affiliates toward seamless internship placements and major career decisions. Student members are advised to start application processes as early as the start of every Fall semester, each year, to enable enough time for them to submit applications and secure summer internship positions. Towards this end, we have provided numerous valuable resources on our website such as links to various job advertisements, resume writing webinars, and interview preparation tips to help members apply to internship positions independently. Note that the list below is non-exhaustive, and these websites are being updated based on job/internship availability. Endeavor to check regularly and also consider external job advertisement websites for more opportunities.
